

We Have Great Programs!

Travel the world! Take Virtual trips

Visit South America, Northern Europe, Eastern Europe, South Asia, North Africa, or just take a road trip to Yellow Stone National Park located in Wyoming, Montana, and Idaho. This multi media presentation will take the children on a journey of a life time! Students will start travel journal to record their findings while they explore significant sites around the world. Tuition includes materials, supplies and snack.

MON 2:00 to 4:00 P.M. Cost \$99 2nd—6th Grades 4 sessions

Countries Around the World

Students will learn about other countries around the world as they build the topographical model of their country of choice. Students will choose a country in any continent and research the geography, history, government, economy, culture, demographics, etc... of that particular country. Tuition includes materials, supplies and snack.

WED 4:00 to 6:00 P.M. Cost \$99 2nd—6th Grades 4 sessions

Architectural Model-Making

What better way to learn about famous buildings than to build their paper models? Our instructors, often practicing architects with extensive knowledge of architectural history, will take the students through the history via multi media presentation. Students learn about the architecture period, theory and building techniques as they build their own models of various famous buildings. Tuition includes cardboard models, supplies, and snack.

TUE 4:00 to 6:00 P.M. Cost \$99 1st—8th Grades 4 sessions

Creative Writing and Effective Reading

Students are introduced to great works of literature and are encouraged to write fiction, poetry (or non-fiction.) This club is similar to a book club where students read a book and discuss it in the class. A book report is optional but encouraged. Students are assigned age/grade appropriate books. This is a wonderful exercise to get their minds engaged in the story. Tuition includes book and snack.

THURS 4:00 to 6:00 P.M. Cost \$99 3rd—6th Grades 4 sessions

Join Today for Great Activities!

Skyscrapers; Building Paper Models

This is another fun-filled model-making and architecture workshop where students will learn the history of skyscrapers. Students would take a virtual site visit via multimedia presentation and explore the tallest buildings in the world. At the end of the virtual site visits, students will build models of these various skyscrapers. This class is offered in two parts. Paper models by Paperlandmarks; tuition includes materials, supplies and snack.

TUE 4:00 to 6:00 P.M. Cost \$99 1st—8th Grades 4 sessions
